

Important ZAARC Notice

Due to the passing of Phil Sales (K4PJS), we have moved our repeater W1PB (146.910) from the 50 foot tower at Phil's house to the 120 foot tower located at the Betmar Library. The antenna is currently mounted at about 35 feet until the tower company can get out and move it to the 120 foot mark, so the coverage area might be affected for the near future.

We would like to thank the Betmar Acres Library for their kind offer to let us occupy space in the Library Building and provide us with tower space. Allstar and echo link are coming soon!

Charlie, KE7UTH

W1PB Repeater Trustee
